# SAFETY DATA SHEET

### 1. Identification

| Product identifier   | CLEAN ACTION® II CARPET EXTRACTION  | CLEANER   |
|--|---|---|
| Other means of identification  |   |   |
| SDS number   | 545N-23A  |   |
| Product code   | HIL00807  |   |
| Recommended use  | Carpet Cleaner  |   |
| Recommended restrictions   | None known.   |   |
| Manufacturer/Importer/Supplier/<br>Manufacturer                              | Distributor information   |   |
| Manufacturer   |   |   |
| Company name<br>Address  | HILLYARD INDUSTRIES<br>302 North Fourth St.<br>St. Joseph, MO 64501   |   |
| Contact person<br>Telephone number<br>Fax<br>E-mail<br>Emergency telephone # | Regulatory Affairs<br>(816) 233-1321 (Ext. 8285)<br>(816) 383-8485<br>regulatoryaffairs@hillyard.com<br>(800) 424-9300<br>(Only in the event of chemical emergency invo<br>or accident involving chemicals.)  | lving a spill, leak, fire, exposure,                  |
| 2. Hazard(s) identification  |   |   |
| Physical hazards   | Not classified.   |   |
| Health hazards   | Serious eye damage/eye irritation   | Category 2  |
|  | Specific target organ toxicity, single exposure   | Category 3 respiratory tract irritation               |
| Environmental hazards  | Hazardous to the aquatic environment, acute hazard  | Category 3  |
|  | Hazardous to the aquatic environment, long-term hazard  | Category 4  |
| OSHA defined hazards   | Not classified.   |   |
| Label elements   |   |   |
|  |   |   |
| Signal word  | Warning   |   |
| Hazard statement   | Causes serious eye irritation. May cause respi<br>long lasting harmful effects to aquatic life.   | ratory irritation. Harmful to aquatic life. May cause |
| Precautionary statement  |   |   |
| Prevention   | Avoid breathing mist or vapor. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear eye/face protection.  |   |
| Response   | If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. |   |
| Storage  | Store in a well-ventilated place. Keep contained  | r tightly closed. Store locked up.                    |
| Disposal   | Buyer assumes all risk and liability associated with disposal of this product (original concentration or dilution) in violation of applicable law. Waste from normal use may be sewered to a public-owned treatment works in compliance with applicable federal, state and local requirements.                        |   |
| Hazard(s) not otherwise<br>classified (HNOC)                                 | None known.   |   |

# 3. Composition/information on ingredients

#### **Mixtures**

| Chemical name                                 | Common name and synonyms | CAS number | %        |
|---|--------------------------|------------|----------|
| PNP Glycol Ether                              |                          | 100-02-7   | 5 - < 10 |
| Alcohols (C12-15 In, Saturated)<br>Ethoxylate |                          | 68131-39-5 | 1 - < 3  |
| Sodium lauryl sulfate                         |                          | 151-21-3   | 1 - < 3  |
| Other components below reportable le          | evels                    |            | 90 - 100 |

Other components below reportable levels

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

# 4. First-aid measures

| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.  |
|--|--|
| Skin contact   | Wash off with soap and water. Get medical attention if irritation develops and persists.   |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. |
| Ingestion  | Rinse mouth. Get medical attention if symptoms occur.  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation.  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.   |
| General information  | If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.          |
| E Fire fighting measures   |  |

### 5. Fire-fighting measures

| Suitable extinguishing media                                     | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
|--|---|
| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| Specific hazards arising from the chemical                       | During fire, gases hazardous to health may be formed.   |
| Special protective equipment<br>and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire fighting<br>equipment/instructions                          | Move containers from fire area if you can do so without risk.                                 |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| General fire hazards   | No unusual fire or explosion hazards noted.   |

### 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |
|---|---|
| Methods and materials for containment and cleaning up                     | This product is miscible in water.<br>Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is<br>possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth<br>and place into containers. Prevent entry into waterways, sewer, basements or confined areas.<br>Following product recovery, flush area with water.   |
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.  |
|   | Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.   |

Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.

### 7. Handling and storage

| Precautions for safe handling | Avoid breathing mist or vapor. Avoid contact with eyes. Avoid prolonged exposure. Provide  |
|-------------------------------|--|
|                               | adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the |
|                               | environment. Observe good industrial hygiene practices.                                    |
|                               |  |

**Conditions for safe storage, including any incompatibilities** Store locked up. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

### 8. Exposure controls/personal protection

| Occupational exposure limits     | No exposure limits noted for ingredient(s).  |
|----------------------------------|--|
| Biological limit values          | No biological exposure limits noted for the ingredient(s).   |
| Appropriate engineering controls | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station. |
| Individual protection measures,  | such as personal protective equipment  |
| Eye/face protection              | Chemical safety goggles when working with concentrate.   |
| Skin protection                  |  |
| Hand protection                  | Not normally needed.   |
| Other                            | Not normally needed.   |
| <b>Respiratory protection</b>    | No personal respiratory protective equipment normally required.  |
| Thermal hazards                  | None known.  |

General hygiene<br/>considerationsAlways observe good personal hygiene measures, such as washing after handling the material<br/>and before eating, drinking, and/or smoking. Routinely wash work clothing and protective<br/>equipment to remove contaminants.

### 9. Physical and chemical properties

| Appearance                                 | Slightly hazy Light green liquid           |
|--|--|
| Physical state                             | Liquid.                                    |
| Form                                       | Liquid.                                    |
| Color                                      | Light green                                |
| Odor                                       | non-objectionable odor                     |
| Odor threshold                             | Not available                              |
| рН   | 8.8 - 9.8                                  |
| Melting point/freezing point               | Not available                              |
| Initial boiling point and boiling          | 206 °F (96.67 °C)                          |
| range                                      |  |
| Flash point                                | > 206.0 °F (> 96.7 °C) Tag Closed Cup None |
| Evaporation rate                           | < 1 (ethyl ether = 1)                      |
| Flammability (solid, gas)                  | Not available.                             |
| Upper/lower flammability or exp            | losive limits                              |
| Explosive limit - lower (%)                | Not available.                             |
| Explosive limit - upper (%)                | Not available.                             |
| Vapor pressure                             | 17.4 mm Hg                                 |
| Vapor density                              | 0.6 Air =1                                 |
| Relative density                           | 1.002 at 77°F                              |
| Solubility(ies)                            |  |

| Partition coefficient<br>(n-octanol/water) | Not available                              |
| Auto-ignition temperature                  | Not available                              |
|  |  |

| Decomposition temperature | Not available   |
|---------------------------|-----------------|
| Viscosity                 | Not available   |
| Other information         |                 |
| Density                   | 8.34 lb/gal     |
| Percent volatile          | 96 - 97 %       |
| VOC (Weight %)            | 5 % Concentrate |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|---------------------------------------|---|
| Chemical stability                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.                                   |
| Conditions to avoid                   | Avoid temperatures exceeding the flash point. Contact with incompatible materials.            |
| Incompatible materials                | Alkaline metals.  |
| Hazardous decomposition<br>products   | Nitrogen oxides (NOx).  |

# 11. Toxicological information

# Information on likely routes of exposure

| Inhalation   | May cause irritation to the respiratory system. Prolonged inhalation may be harmful.  |
|--|---|
| Skin contact   | No adverse effects due to skin contact are expected.  |
| Eye contact  | Causes serious eye irritation.  |
| Ingestion  | Expected to be a low ingestion hazard.  |
| Symptoms related to the physical, chemical and toxicological characteristics | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. |

#### Information on toxicological effects

| Acute toxicity            | May cause respiratory irritation. |                                      |
|---------------------------|-----------------------------------|--------------------------------------|
| Product                   | Species                           | Test Results                         |
| CLEAN ACTION® II CAR      | PET EXTRACTION CLEANER            |                                      |
| Acute                     |                                   |                                      |
| Inhalation                |                                   |                                      |
| LC50                      | Mouse                             | 51750 mg/l, 4 Hours estimated        |
|                           |                                   | 50000 mg/l, 2 Hours estimated        |
|                           | Rat                               | 27272.7422 mg/l, 0.5 Hours estimated |
|                           |                                   | 27272.7422 mg/l, 4 Hours estimated   |
| Oral                      |                                   |                                      |
| LD50                      | Rat                               | 8953.3125 mg/kg estimated            |
| Components                | Species                           | Test Results                         |
| PNP Glycol Ether (CAS 1   | 00-02-7)                          |                                      |
| Acute                     |                                   |                                      |
| Oral                      |                                   |                                      |
| LD50                      | Mouse                             | 380 mg/kg                            |
|                           | Rat                               | 450 - 850 mg/kg                      |
| Other                     |                                   |                                      |
| LD50                      | Mouse                             | 75 mg/kg                             |
| Sodium lauryl sulfate (CA | S 151-21-3)                       |                                      |
| Acute                     |                                   |                                      |
| Oral                      |                                   |                                      |
| LD50                      | Rat                               | 1288 mg/kg                           |

\* Estimates for product may be based on additional component data not shown.

| Skin corrosion/irritation                             | Prolonged skin contact may cause temporary irritation.   |
|---|--|
| Serious eye damage/eye<br>irritation                  | Causes serious eye irritation.   |
| Respiratory or skin sensitizatior                     | 1  |
| <b>Respiratory sensitization</b>                      | Not a respiratory sensitizer.  |
| Skin sensitization                                    | This product is not expected to cause skin sensitization.  |
| Germ cell mutagenicity                                | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. |
| Carcinogenicity                                       | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.                                  |
| US. OSHA Specifically Regu                            | llated Substances (29 CFR 1910.1001-1050)  |
| Not listed.   |  |
| Reproductive toxicity                                 | This product is not expected to cause reproductive or developmental effects.                                     |
| Specific target organ toxicity - single exposure      | May cause respiratory irritation.  |
| Specific target organ toxicity -<br>repeated exposure | Not classified.  |
| Aspiration hazard                                     | Prolonged inhalation may be harmful.   |
| Chronic effects                                       | Prolonged inhalation may be harmful.   |

# 12. Ecological information

Ecotoxicity

Harmful to aquatic life. May cause long lasting harmful effects to aquatic life.

| Product            |               | Species     | Test Results           |
|--------------------|---------------|-------------|------------------------|
| CLEAN ACTION® II C | ARPET EXTRACT | ION CLEANER |                        |
| Aquatic            |               |             |                        |
| Crustacea          | EC50          | Daphnia     | 19.0289 mg/l, 48 hours |
| Fish               | LC50          | Fish        | 39.3479 mg/l, 96 hours |

\* Estimates for product may be based on additional component data not shown.

| Persistence and degradability | No data is available on the degradability of this product.  |
|-------------------------------|---|
| Bioaccumulative potential     |   |
| Mobility in soil              | No data available.  |
| Other adverse effects         | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |

### 13. Disposal considerations

| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. |
|--|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).   |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Triple rinse (or equivalent). Then offer clean, dry container for recycling or reconditioning.   |

# 14. Transport information

#### DOT

Not regulated as dangerous goods.

# 15. Regulatory information

| US federal regulations | This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. |
